We service marine engines by Mercury Marine specifications

## I/O Winterization

### Step 1

1. Charge Battery
2. Add stabilizer to fuel tank
3. Run engine in tank of anti-freeze (-50 degree below zero rated)
4. Fog engine with fogging oil and shut down
5. Check lower unit- drain and refill is needed
6. Grease all greased parts
7. Top off liquid levels
8. Clean flame arrestor

### Step 2

1. Change motor oil and filter
2. Run motor and recheck levels
3. Change fuel water separator

### Step 3

1. Pull outdrive, check motor alignment
2. Check gimbal bearings
3. Grease U-Joints
4. Grease splines
5. Replace outdrive gasket
6. Check bellows for cracking
